Dear Dave,

I've had a mostly low-grade fever all week and have done nothing. Not even send the enclosed to the DAR. But I'll have a covering letter when I do andI'll send you a copy.

Also enclosed is the reason I'm sending this to you as soon as I can: Chapter 4 of my second Kurtz book, the rough draft with corrections to be made. This turned up in Lil's closet, she says, and she had been in it little recently. She thinks that someone was retyping it there. I do not know but it includes a number of the abundant illustrations of Kraft's ignorance the actual assassination evidence, another illustration of his skipping even the actual evidence he had his school but for him.

Also the kinds of evidence that Luke managed to get wrong just that way.
